

Diablo Canyon Independent Safety Committee

Application for Nomination

DIRECTIONS

- I. Pursuant to the Diablo Canyon Power Plant Stipulated Agreement, approved by California Public Utilities Commission (CPUC), applications are being solicited from persons qualified to serve on the Diablo Independent Safety Committee (DCISC or Committee).

The CPUC approved this Stipulated Agreement, among Pacific Gas and Electric Company (PG&E), San Luis Obispo Mothers for Peace, DCISC, the CPUC's Office of Ratepayer Advocates, the California Energy Commission (CEC), and The Utility Reform Network, on May 27, 2004 in Decision D.04-05-055.

The purpose of the DCISC is to review the operations of the Diablo Canyon Power Plant in order to assess the safety of said operations and to make recommendations for safe operation of the plant. The DCISC is required to submit an annual report of its observations and recommendations, first to PG&E, and then to the Governor, the CPUC, the CEC and the California Attorney General, along with PG&E's response to those observations and recommendations.

The Stipulated Agreement provides that only persons with knowledge, background and experience in the field of nuclear power plants and nuclear safety issues are eligible to be considered for membership on the Committee. In addition, members of the Committee must meet conflict of interest and financial disclosure standards similar to those applicable to public officials. For these reasons, applicants for membership on the Committee will be required to demonstrate their qualifications and disclose their personal finances on a confidential basis in order to be eligible for nomination. The selection will be made from a list of nominees by the President of the CPUC, Michael R. Peevey.

Persons who wish to apply for membership on the Committee must complete this application and submit it to the CPUC. The application must be received at the following address by 4 p.m. on April 30, 2006.

- II. To be considered, the application must include the supporting information specified below, demonstrating that the prospective nominee possesses the requisite qualifications to serve on the Committee. Applications will be considered in strict confidence.
- III. An application may be rejected or not considered if it is conditional or incomplete in any manner. The CPUC reserves the sole discretion to determine the process for reviewing and considering applications consistent with the requirements of the Stipulated Agreement. Applicants may be required to provide additional information concerning their qualifications beyond that provided in this application in order to be considered for nomination.

It is mandatory that the application contain the signature of the applicant. Applications without a signature will not be considered.
